Godspeed Hellbound

Black Label Society

Decisions that kill
And bullets that fly
Lords of inferno
That litter the skySchizophrenic poems of death
Machine ever after that never restsAs the world burns
Beneath the ground
Godspeed
HellboundThe gears that grind
Shall never be still
The grudge that burns
Obsessed 'til it killsShattered cries of the
Prayers never heard
War of the gods that
Drown out of wordsCrashing burning all shall fade
Dead and dying here to stayAgainst his maker
No regard for his fall
The winds of the west
Bow down to his callFamine and murder
Beside from within
The vultures gather
Devouring sin
