## DJ Snake Machine

[chours]

toot that thang up mami make it roll  
Once you pop pop lock it for me baby get low  
If your mama gave it to you baby girl let it show  
Once you pop lock drop it for me maybe we can roll (oh)

Pop lock and drop it [8x]

[Verse 1:]

[Huey]

Tonight it's gon' be some changes  
No acting sadity  
So stop acting and get it clapping  
'Cause I'm knowing you feeling me  
Yeah you cute  
But don't let that shit go to your head  
'Cause with this cutie won't do  
Pimping another one will  
You prepared rocking a skirt  
And your heels so tall  
And we ain't with none of that tricking but our bills so tall  
I've been peeping you for a while and you're throwing it back  
If you looking for you balla we got dough in the back  
Look your color camello brown  
And your skin so smooth  
I'm having fantasies about what you and me can do  
And you an undercover freak  
You probably thinking the same  
I'm seeing light up on your face because you peeping my chain  
And I ain't tryna put you out there as if you a freak  
So don't even take it that way just say you did it for me  
And you probably roll with me 'cause it's money in my pockets  
So before then I gotta see you pop lock and drop it

[Chorus 1x]

[Verse 2:]

I ain't gotta be your man  
But I really wouldn't mind

We ain't got to talk again I'm just tryna have a time  
If you a balla pulla stack out and smack her on the ass  
    Pop locking cock blockas get up out the way  
        Let lil mami get low  
        Give a space let her sweat  
The club turning to hoolas 'cause they shirts is so wet  
    From the window to the wall  
    Lil mama showing her thong  
The broad freaking herself it's telling me that it's on  
You ready then we can roll I'm telling you we can go  
I'm thinking if I can handle it the way you make it roll  
    You grooving and speeding up  
        You right in between us  
If you a stripteaser then baby don't tease us  
    At first I thought I was tripping  
        But my vision getting clearer  
You moving that thang around as if you practice in the mirror  
    She doing a new dance  
        What the next man said  
I'm like naw she just pop locking on a headstand

[Chorus 1x]

[Hook]  
Make it roll to the left (left)  
    Roll to the right (right)  
Pop lock and drop it get low a'ight  
    Make it roll to the left (left)  
        Roll to the right (right)  
Pop lock and drop it get low a'ight  
    It ain't tricking if you got it  
        We got it but I ain't giving  
Just bounce it and roll wit it and maybe you roll wit us  
    It ain't tricking if you got it  
        We got it and I ain't giving  
Just bounce it and roll wit it and maybe you roll wit us

    Pop lock and drop it  
Now pop lock and drop it for me  
    Pop lock and drop it  
        Say pop lock and drop it  
        What's your name girl  
        Neva mind never mind  
Do you thang girl fuck you ain't never lied  
    What's your name girl

Never mind never mind  
Do you thang girl fuck you ain't never lied (Oh)
