

In My Head

PRIME Sth

As the rain comes down, I wonder
If I've ever been this low
And as I try to find the answer
To why I feel this way, it shows That I can't be without you
I won't deny it, you're always in my head
In my head, in my Every time I close my eyes
All that I can see is you
And I can't get you off my mind
I guess I'm always stuck with you Every time I close my eyes
All that I can see is you
It won't leave me And as the rain pours down, I wonder
If I'll ever be the same
Will I ever find some peace of mind
Or slowly go insane? 'Cause even though you're thousand miles away
You're always in my head
In my head, in my Every time I close my eyes
All that I can see is you
And I can't get you off my mind
I guess I'm always stuck with you Every time I close my eyes
All that I can see is you
In my head And now when everything is wasted
It's wasted
It seems impossible to make it
To fake it Every time I close my eyes
All that I can see is you
And I can't get you off my mind
I guess I'm always stuck with you Every time I close my eyes
All that I can see is you
'Cause I can't get you off my mind
I guess I'm always stuck with you (I guess I'm always stuck with you)
In my head
(I guess I'm always stuck with you)
In my head
(I guess I'm always stuck with you)
In my head As the rain comes down I wonder
If I've ever been this low
