

Red's Dream

Louisiana Red

It was a dream, dream I had last night

I dreamed I went to the UN

And set the whole nation right

I dreamed of callin' old Castro

To the morning flo'

Looked him right in the eye and said, "Boy,

You got to go!

I'm tired of your foolishness

And if you don't behave,

I'm goin' grab you by your beard,

Give you a Georgia shave!"

It was a dream, a dream I had last night

I dreamed I went to the UN

And set the whole nation right

Then I told old Khrushchev

Sittin' there looking bad,

"Get that junk outta Cuba

â€˜Fore you make me mad.

Dig up them missile bases

Take them planes and all

Or I'll grab me a bat

With your head for the ball!"

It was a dream, dream I had last night

I dreamed I went to the UN

And set the whole nation right

Then into Washington they call me

An' I went

Hadda be the guest

Of the President

He said, "Red, I'm glad to see you,

So glad you come down here

To help me run the Russians

From the western hemisphere!"

I said, "You can run the country

I'm goin' to run the Senate

Oughtta make a few changes

With a few soul brothers in it.

Ray Charles and Lightnin' Hopkins

And a guy like Jimmy Reed

Bo Diddley and Big Mabel

Be all I need!"

It was a dream, a dream I had last night

I dreamed I went to the UN

And set the whole nation right
