

# Being Bad Feels Pretty Good

## Does It Offend You, Yeah?

Read between the lines  
Our self respect has died  
You've got me in a bind  
I'll never be confined You make me, break me  
And maybe it's draining OK, weren't it all the same?  
I will not be that way  
I'll take it day by day OK, weren't it all the same?  
I will not be that way  
I'll take it day by day Fill me with your lies  
A product of these times  
I'll leave it all behind  
A hunch from deep inside You make me, break me  
And maybe it's draining OK, weren't it all the same?  
I will not be that way  
I'll take it day by day OK, weren't it all the same?  
I will not be that way  
I'll take it day by day OK, weren't it all the same?  
I will not be that way  
I'll take it day by day OK, weren't it all the same?  
I will not be that way  
I'll take it day by day
