

# The Equalizer

## Junior Boys

So stay, what for?  
Get lost, hit the floor  
'Cause there's fire all around  
It's in my hands, it's out the door Springtime, you're gonna wish that we were friends  
That we talk, you never feel so sure again  
So now, there'll be no lessons, no more cures  
Til you get yours, baby, in the end I'll run, give way  
Which face, and whose name?  
You're falling from my eyes  
To the bottom, you're all the same Springtime, you're gonna wish that we were friends  
That we talk, you never feel so sure again  
So now, there'll be no lessons, no more cures  
Til you get yours, baby, in the end Springtime, you're gonna wish that we were friends  
That we talk, you never feel so sure again  
So now, there'll be no lessons, no more cures  
Til you get yours, baby, in the end
