Lay My Body Down

Glenn Hughes

I've been travelin' for so many days
Through the valleys I have gone
I've been searchin' in so many ways
For the things that I have doneNow I ask you, do you love me?
And don't tell me any liesI will keep on ridin' in the early morning light
'Til they lay my body downBehind the conscience of every man
Is a thing we all must trust
As I look across the land
I see shadows in the dustSo how can you judge me
When you don't know me?
I know you'll miss me when
I'm dead and goneI will keep on ridin' in the early morning light
'Til they lay my body downSo close your eyes and you will find me
I'll be watching over you
I will be with you, you'll feel my spirit
I know your faith will put you throughNow, I ask you, do you love me?
And don't tell me any liesI will keep on ridin' in the early morning light
'Til they lay my body down
I will keep on ridin' in the early morning light
'Til they lay my body, 'til they lay my body
'Til they lay my body downI know you'll miss me, I know you'll miss me
