

Can't Keep On Loving You (From a Distance)

[Elliott Yamin](#)

How do I get close when she looks like an angel
A moment of her time just seems impossible to me
It's hard to find the words, to get to know this stranger
I'm scared of what she'll say if what I say sounds incomplete And it feels like we belong together
Can someone tell me where do I start? 'Cause I can't keep on feelin' the way I do
I can't keep on hidin' my heart from you
I gotta say somethin' before someone else comes through
I can't keep on lovin' you from a distance She's always on my mind, there's no room left for thinkin'
I'm tired of waitin', slowly fadin', it needs to happen now
'Cause I'm runnin' out of time and I feel this ship is sinkin'
The doors are closin', I am frozen, I need her around And it feels like we belong together
Can someone tell me where do I start? 'Cause I can't keep on feelin' the way I do
And I can't keep on hidin' my heart from you
I gotta say somethin' before someone else comes through
I can't keep on lovin' you from a distance
From a distance, ooh, from a distance, from a distance I can't hide I can't keep on feelin' the way I do
I can't keep on hidin' my heart from you
I gotta say somethin' before someone else comes through
'Cause I can't keep on lovin' you
I can't keep on lovin' you from a distance
