

My Citys Gone

Francis and the Lights

[Verse 1]

They boarded up; my favorite bar
A Frenchman lost; his resting room
And the secret alleys; were rearranged
I woke one day; and it had changed[Chorus]

My city's gone

My city's gone

I lost another one

[Verse 2]

I'm forty-three, my heart once beat

I'm forty-five, I came alive

And there was a spirit

So young and free

It spoke to you

It spoke to me[Chorus (Kanye West)]

My city's gone (my city, oh oh)

Oh no, my city's gone (my city's gone)

I lost another one[Verse 3]

I met a man; who coughed and swore

That it had been changing; since it was born

That it was I; and nothing more

From twenty-three; to thirty-four[Chorus]

My city's gone

My city's gone

And I have to go

My city's gone[Outro]

I still found me back in the mall

I will not decline

Still feeling lost and nothing more

I feel lost in time

Does anybody happen to know (happen to know)

Way after I'm

Still feeling lost and manageable

I say nothing's right

Tell it all from the heart

I'm sitting out at the bar

Tell it all that I'm making my way
