The Tube

AstroPuppees

Hi dear, what's on tonight
Let's stay up and watch the tube
And bask in the big blue light
Bye bye real life, checking into checking out
It's saturation timePerfect faces, perfect background, perfect everythingI wanna live in a dream that is never ending
I wanna love all the wasted time I'm spending
Tonight I can take it all the way
Because tonight, I'm everything I wanted to beWell dear, it's a good thing
I don't have to look at you
And you don't have to look at me
I think that's a good thingWe're perfect strangers, perfect ohh, perfect everythingI wanna live in a dream that is never ending
I wanna love all the wasted time I'm spending
Tonight I can take it all the way
Because tonight, I'm everything I wanted to beI wanna live, I wanna liveI wanna live in a dream that is never ending
Tonight I can take it good
I wanna love all the wasted time I'm spending
Tonight I can take it all the way
Because tonight, I'm everything I wanted to beI wanna live in a dream that is never ending, ooh
I wanna love all the wasted time I'm spending
Tonight I can take it all the wayI wanna live in a dream that is never ending
I wanna love all the wasted time I'm spending
Tonight I can take it all the wayI wanna live in a dream that is never ending
I wanna love all the wasted time I'm spendingI wanna live in a dream that is never ending
I wanna love all the wasted time I'm spending
I wanna live in a dream that is never ending
