

# Go Hard

## Lecrae

[Hook:]Go Hard or Go Home [x2]

Lord Use Me Up [x2]

[Verse 1: Lecrae]Lord kill me If I don't preach the gospel

I'm still in my 20's- but I'll die if I got to

Already dead- so forget my flesh

I done been crossed over see the full court press

I'm a full court mess if the Lord don't use me

Running from my trials thinkin everythings groovy

If the Cross don't move me then I don't wanna breath no mo

If I ain't seeing Christ potna I don't wanna see no mo

Rep every day withouth worrying about bruising

I been to china mayne I seen some real persecution

If U didn't know em would ya life look the same

Can they tell you value Jesus by the way you rep his name?

Man what's the point of living if I'm living for myself

Lord empty out my life before I put you on the shelf So for God I got Hard I don't' wanna die tonight

It's too many people living who ain't heard about my Christ

Go Hard or Go Home [x2]

Lord Use Me Up [x2]

[Verse 2: Lecrae]Went to Asia had to duck and hide-for Sharin my faith

They tell me water it downwhen I get back to states

They say tone the music down you might sell a lot a records

But it's people out here dying and none of em heard the message

Took my wifey on mission trip - central america

Shared her testimony 40 people stood and stared at her

When she said Jesus shoulda seen it was insane cause 40 out of 40 never heard of Jesus name

Aw mayne we ain't focused on the war we just kickin it

Worried bout our image and our space up on the internet

Take me out the game coach

I don't wanna play no mo

If can't give it all I got and leave it out there on the court

Thank you for the Grace for the will and the desire

Got me

Living for your glory stead of living to retire

But I pray I'll never tire of Going hard for Messiah

I don't need no motivation You the reason I'm inspired.

[Verse 3: Tedashii]Go Hard

Go Home, Go Hard

Go Home  
That's what that is baby  
That what that mean  
That what that mean  
That what That is baby  
That what that mean  
That what that mean  
Wha-What that mean?  
That mean that we, should be out up in ok streets  
Not just in houses with our bible's summrizing what we read  
Man this ain't deep (man this ain't deep)  
Why we ain't doing what we read  
It's like we sleep (it's like we sleep)  
But sinners sleepwalk when they sleep  
So why can't we (so why can't we)  
The redeemed of the LORD  
Act out, what He said  
And make a scene for the LORD  
Action-cut, say what, like we was the director  
But you better get a Grip like movie sets, and get to stepping  
(Martin)  
I know you done it  
Da-done it, da-done-and heard it all  
You was going hard for the Lord before you heard this song  
But don't play yourself to save ya self  
And walk in fear  
Scripture's like a mirror  
The truth is closer than it appears
