Shes Everything

BBMak

If you let me be a part of you
If you tell me what I gotta do
Maybe I could change
I don't wanna see another day
If I ever let you walk away
From the love we haveAnd here I can't see why I need her close to me
She's everything, everything that I ever wanted here
Oh, she's everything and I don't wanna make believeNever needed anyone before
Never knew you could give me
More than I ever had
I don't wanna be afraid again
You're the one that saves me
When I'm falling from youAnd here I can't see why I need her close to me
She's everything, everything that I ever wanted here
Oh, she's everything and I don't wanna make believeI'll never be what you make me
Take me now
Trying to find if there's a way
To make you mineShe's everything, everything that I ever wanted here
Oh, she's everything and I don't wanna make believe
She's everything, everything that I ever wanted here
Oh, she's everything and I don't wanna make believe
She's everything
