

# Shes Everything

[BBMak](#)

If you let me be a part of you  
If you tell me what I gotta do  
Maybe I could change  
I don't wanna see another day  
If I ever let you walk away  
From the love we have And here I can't see why I need her close to me  
She's everything, everything that I ever wanted here  
Oh, she's everything and I don't wanna make believe Never needed anyone before  
Never knew you could give me  
More than I ever had  
I don't wanna be afraid again  
You're the one that saves me  
When I'm falling from you And here I can't see why I need her close to me  
She's everything, everything that I ever wanted here  
Oh, she's everything and I don't wanna make believe I'll never be what you make me  
Take me now  
Trying to find if there's a way  
To make you mine She's everything, everything that I ever wanted here  
Oh, she's everything and I don't wanna make believe  
She's everything, everything that I ever wanted here  
Oh, she's everything and I don't wanna make believe  
She's everything
