

# Ghost Children

## Deuce Eclipse

Runnin for the future  
we leave a child behind  
we have to tell the children  
they all oNE of a kind  
scare of a neighbor hood  
cuz the kid aint doing good  
lashing out un anger  
now in days that miss understood  
no onE really teach  
any of the e to reach  
exept that gat that claks like a beat  
where are the children with the eyea open wide i know they realized dont tell me they died.
