

Comin' on Strong

Cold Mission

Well, I said I'd call her sometime
No, I think I just said I might
'Cause I was cool as Colorado
Oh Mr. Saturday night, we're talkin' shades on
Leanin' on the payphone I let her know right off, I was the restless kind
Don't expect from me to get all tangled up and tied
I was one smooth cowboy
But don't look now boys She's comin' on strong, from out of nowhere
She's some kind of sweet, and I'm some kind of scared
She's touchin' my hat, and I don't even care
She's comin' on strong In her big blue eyes, I can do no wrong
I was doin' all right, gettin' by on my own
Till little miss, you know who comes along
She's comin' on strong Now who's that calling me
Her little honey bear, sittin' next to me
With her head on my shoulder
We're talking up close, and I'm thinkin' oh oh Where's all this lovey dovey stuff comin' from
I've tried to tell her I'm no good
And any day I'm bound to run
But she just laughs, man what's up with that She's comin' on strong, from out of nowhere
She's some kind of sweet, and I'm some kind of scared
She's touchin' my hat, and I don't even care
She's comin' on strong In her big blue eyes, I can do no wrong
I was doin' all right, gettin' by on my own
Till little miss, you know who comes along She's comin' on strong, from out of nowhere
She's some kind of sweet, and I'm some kind of scared
She's touchin' my hat, and I don't even care
She's comin' on strong
