

Live and Breathe

Flaw

Bounce back cardiac, whatever trouble arises I got your back,
We're taking no numbers just face to face, if you've come for no reason we're taking your place,
I do differ from time to time, but you know I've never left a good man behind,
So I get by here day to day, this is something that you'll never be taking away Hooah!All these fears are gone
now, so many troubles have washed away,
We've made it through this somehow, to live and breathe another day!Oh...Full bred to react, I'm like a freight
train staying right on the track,
I never back down just lead the pack, if you bring me your reasons you're taking them back, so...
Why put yourself near to me, don't you ever want to leave a place peacefully,
It won't make a difference now can't you see, I will never let that prosecution happen to me no!All these fears
are gone now, so many troubles have washed away,
We've made it through this somehow, to live and breathe another day!We are the chosen few who don't fall in
line, we are the ones who always choose to define
Our will to conquer and to not compromise, it seems the only way we'll save our livesAll these fears are gone
now, so many troubles have washed away,
We've made it through this somehow, to live and breathe another day!
And as our time grows shorter, I'm know we'll have much more to say,
The truth is so much clearer, to live and breathe another day!All these fears are gone now, so many troubles
have washed away,
We've made it through this somehow, to live and breathe another day!
