Almost

Lucie Silvas

I got a wake up call, I got to make this work
Cause if we don't we're left with nothing and that's what hurts
We're so close to giving up but something keeps us hereI can't see what's yet to come
But I have imagined life without you and it feels wrong
I want to know where love begins, not where it endsCause we don't know what we're doing
We're just built this way
We're careless but we're trying
Cause we both make mistakes
And I don't want to keep on running
If we're only gonna fall behind
We've almost got it right
But almost wasn't what I had in mindWe want it all and deserve no less
But all we seem to give each other is second best
We're still reaching out for something that we can't touchCause we don't know what we're doing
We're just built this way
We're careless but we're trying
Cause we both make mistakes
And I don't want to keep on running
If we're only gonna fall behind
We've almost got it right
But almost wasn't what I had in mindYou know there's nothing like this love
So we don't want to let it goCause we don't know what we're doing
We're just built this way
We're careless but we're trying
Cause we both make mistakes
And I don't want to keep on running
If we're only gonna fall behind
We've almost it got right
But almost wasn't what I had in mind
