1 Girl Nation

Girls night out at the movies
Grab some popcorn and candy Yeah, it's the weekend
We're young and we're dreaming
That could be us on the screen Now the credits are rolling
And it's got me thinking If my life was a cinema
What would my story tell?
Would the tickets sell?
Were You in the frame? If my life was a cinema
Did You play the lead?
Were You directing me?
Did I bring You fame? If my life was a cinema
Cinema
Cinema
My life, my life, my life Cinema
Cinema
Cinema
My life, my life, my life Some days up like they're magic
Then some down like Titanic I can be frozen
Tangled and broken
But You show me a whole new world Now I'm stuck in wonderland
And it's got me thinking If my life was a cinema
What would my story tell?
Would the tickets sell?
Were You in the frame? If my life was a cinema
Did You play the lead?
Were You directing me?
Did I bring You fame? If my life was a cinema
Cinema
Cinema
My life, my life, my life Cinema
Cinema
Cinema
My life, my life, my life Whoa, oh, oh
Ever had your life flash before your eyes like
Whoa, oh, oh
Did I try, did I lie, only think about I
Yeah
I wanna make this one life count
Before the clock runs out

Red carpet got me thinking 'bout what really matters now You can have your flashing lights

All this crazy "got me" life
You can have it, you can keep it
Don't need it, best believe that
I'mma make Your name be bright
Shining like stars at midnight
Roll it back, roll it back
