Saving Grace

Flyleaf

Pleading cause we prayed for peace tonight Bleeding cause you knew the fight was right Take my hand, we're almost home We can see the fire glowSave me grace I'm sick of saving face Will You hold me close? You're all I want to know AnymoreWake me up with patience I don't know Call me by a name that I love Take my hand, we're almost home We can see the fire glowSave me grace I'm sick of saving face Will You hold me close? You're all I want to knowDesperate love has got me where You want I surrender Take us to the place we can start Happy ever after Desperate love has got me where You want I surrender Take us to the place we can start Happy ever after Happy ever afterSave me grace I'm sick of saving face

You're all I want to know
Save me grace
I'm sick of saving face
Will You hold me close?
You're all I want to know
Anymore

Will You hold me close?
