Freak Me Out

DAT Politics

City streets at night
Can be so intimidating
I'm not the toughest guy
I gotta keep my eyes open
You came out of nowhereMan you really freak me out
I'm so afraid of you
And when I lose my cool
I don't know what to doI know you don't mean no harm
You just doing your thing
But man you really freak me outDid I hurt you? Are you okay?
Can I buy you a drink?
Oh what's the world coming to?
You came out of nowhereMan you really freak me out
I'm so afraid of you
And when I lose my cool
I don't know what to doI know you don't mean no harm
You just doing your thing
But man you really freak me outI'm going to try to improve my manners
(Manners)
Everyone, yes everyone, is my friendCity streets at night
(City streets at night)
City streets at night
(City streets at night)
Till the morning light
(Till the morning light)
City streets at night
(City streets at night)Man you really freak me out
I'm so afraid of you
And when I lose my cool
I don't know what to doI know you don't mean no harm
You're just doing your thing
But man you really freak me out
