

# Freak Me Out

## DAT Politics

City streets at night  
Can be so intimidating  
I'm not the toughest guy  
I gotta keep my eyes open  
You came out of nowhere Man you really freak me out  
I'm so afraid of you  
And when I lose my cool  
I don't know what to do I know you don't mean no harm  
You just doing your thing  
But man you really freak me out Did I hurt you? Are you okay?  
Can I buy you a drink?  
Oh what's the world coming to?  
You came out of nowhere Man you really freak me out  
I'm so afraid of you  
And when I lose my cool  
I don't know what to do I know you don't mean no harm  
You just doing your thing  
But man you really freak me out I'm going to try to improve my manners  
(Manners)  
Everyone, yes everyone, is my friend City streets at night  
(City streets at night)  
City streets at night  
(City streets at night)  
Till the morning light  
(Till the morning light)  
City streets at night  
(City streets at night) Man you really freak me out  
I'm so afraid of you  
And when I lose my cool  
I don't know what to do I know you don't mean no harm  
You're just doing your thing  
But man you really freak me out
