

# The Curse

## Nural

How long until I find the strength  
To lift this lover's curse  
'Cause in my head its surfaced  
But otherwise unearthed And superstitions got me thinking  
When will it all end?  
I wish this curse on no one When she walks inside my world youll know it  
Call me crazy if I try  
Youre prob'lly right When she walks inside my world youll know it  
Call me crazy if I try,  
'Cause I know youre right  
When she walks inside And I wait until I find the strength  
To break this lovers curse  
'Cause in my head its ruptured  
But clearly never burst And you wont find  
My cure anytime soon  
So let these days be numbered When she walks inside my world youll know it  
Call me crazy if I try  
Youre prob'lly right When she walks inside my world youll know it  
Call me crazy if I try,  
'Cause I know youre right  
(2x)  
You're right  
When she walks inside How long until I find the strength  
To lift this lover's curse?  
'Cause in my head its surfaced  
In my head its surfaced  
(3x)Then she walked inside  
(Then she walked inside my world)  
Then she walked inside, yeah  
(2x)
