Little Neutrino

Klaatu

Across your open mind
I trace erratic lines
In motion and in timeI fought a battle won
To the surface of the sun
Through fires on and onIt's only you
It can't be me
For I myself refuse to be
I am someone you'll never know
I am the little neutrinoSolus is not far away
It's face is brighter than a day
So don't turn me awayIt's only you
It can't be me
For I myself refuse to be
I am someone you'll never know
I am the little neutrinoAnd now I'm passing through
The one who's known as you
And yet you'll never know I do"Good-night"
