

My Love Is Real

Buddy Guy

My love for you is like, is like a sweet refrain
Real, real true love, is like a burnin', burnin' flame
My love for you will live through storm and rain
My love, my love for you is real love My love for you, words can never express
God, God only knows, that I'll love you, love you best
With only you my love could ever rest
My love, my love for you is real My love for you will live forever
Forever, oh, and a day
If you love me, love me my darlin'
Wont you show me in your own sweet way My love for you makes me want you near
Within, within my heart, I really need, need you dear
Sometimes true love can make a, make a man shed tears
My love for you is real
