Funny Face

The Muffs

Sitting back and doing nothing I could hate you I don't think I willIf you ever see me anywhere And you know me Please walk awayFunny face Why do you look after me? Funny face Why do you care? Doing everything I wanna do Maybe someday You will be thereI thought we would always get along I like everyone They all hate meFunny face What's wrong with you anyway? Funny face Why do I care? You want everything from me But you won't get it I did everything I could But now, I'll just forget itFunny face What's wrong with you anyway? Funny face Why do I care?
