

# Varsovie

## Brodka

I fell in love with the city  
At first sight it looked pretty  
We used to share the same love for grey  
Through the blanket of clouds  
It wasn't easy  
To be sure that the sun will come back

I used to walk on the autumn leaves  
Now they're only burnin' my feet

Wake me up in July  
Lick the snow from my eyes  
Underneath the blue sky  
All I need is my bike

Wake me up in July  
Lick the snow from my eyes  
We will catch the shooting stars  
On the blackboard night sky

Need to curse to talk about you  
Need you less than I felt I would  
What have you done to make the light go away  
I can cheat on you with every city  
But they only make love just the same

I used to walk on the autumn leaves  
Now they're only burnin' my feet

Wake me up in July  
Lick the snow from my eyes  
We will catch the shooting stars  
On the blackboard night sky

Wake me up in July  
Lick the snow from my eyes  
Underneath the blue sky  
All I need is my bike

Wake me up in July

Lick the snow from my eyes  
We can catch the shooting stars  
On the blackboard night sky

Wake me up in July  
Lick the snow from my eyes  
Underneath the blue sky  
All I need is my bike

Wake me up in July
