Electric Bird

Sia

Someone plugged you in
And sadly they clipped your wings
You can't fly away electric bird
Yeah, someone took your tweet
One day they fed you that bad seed
You can't fly away electric bird
Well you're art, you fell into this part
You play the victim perfectly holding your beating heart
You used to be so smart
You fluttered round the yard making your magic
Got to set you free
You were blinded by deceit
You can't fly away electric bird

So now this room's all staged
While you're stuck there in that cage
You can't fly away electric bird
Well you're art, you fell into this part
You play the victim perfectly holding your beating heart
You used to be so smart
You fluttered round the yard making your magic
You're art, you fell into this part
You play the victim perfectly holding your beating heart
You used to be so smart
You fluttered round the yard making your magic
