

# Real Playa Like (feat. Lloyd)

## Fabulous

Tryna show you somethin, shawty  
Hey, baby girl, they say the world is a beautiful place, thats right  
Im tryna help you open your eyes and see that  
Different shit, cool shit, real playa like  
Hey, shawty, we could do it real playa like  
We could go a few places that you say you like  
See what it is like, when you be my a-alike?  
Girl just lay back, Ill do it that way you like  
Said its the flyest thing just the way we swing  
Me and you, how we do? We so fly  
You need to leave them burgers alone and make a steak upgrade  
Im Fillet Mignon with a tape-up fade  
I see things clear through these Marc Jacobs shades  
Like the clarity in these jewels that Jacob made  
You sleep better knowin you gon' wake up paid  
Hair styled, nails filed, make-up made  
We can shock South Beach, shake up Dade  
In a droptop Phantom with the Drakov blades  
Ima stop by the barber  
You can hit the shops in the harbor  
Then get the chops or the lobster  
Prime on 12, dinner for dos  
We begin with a toast, end with a dose  
Of the light green cheeba rolled in a Cohiba  
Its Sunday, so you know how the Forge is  
Weather gorgeous, not a cloud in the sky  
We could show the world how to be fly, yes  
Hey, shawty, we could do it real playa like  
We could go a few places that you say you like  
See what it is like, when you be my a-alike?  
Girl just lay back, Ill do it that way you like  
Said its the flyest thing just the way we swing  
Me and you, how we do? We so fly  
If you wanna act Hollywood fine  
But shawty, let's do it when we sittin on the hills  
Like the Hollywood sign  
And every man lies, but not every man flies  
Privately to Van Nuys  
Range on the runway, driver to pop doors  
Straight to Barneys, somethin we need to stop for  
She like, "Its early, what we gonna shop for?"  
How bout green grass breakfast, top floor?  
Later on Fred C or Max Fields  
Real playa like dress, good black heels  
No 'Hanas, we can do Katana's  
You, me and ooh-wee, marijuana  
Then slide through Hyde, might include Mood  
Maybe go to Area if its in the area  
The Fridays young try things my way, hon  
Malibu ride, Highway 1  
Nothin is too much, everythin you touch  
Turns to gold, you make me better

I'm fly as I can be, but you with me  
I cant help but notice, Im more focus  
Cause youre the coldest, girl youre soHey shorty, bring the Mayback, we got a long way to go  
Just lay back, you had a long day, I know  
And they whack, do it the wrong way, I know  
I play back but have the song playlin lowWhile we 6 deuce and let you fix Goose  
In a glass with sum ice, maybe mix juice in  
On the way to L.A, well, I couldve took the heli  
But we door more behind wheelHampton home, 2 floors for 9 mill  
Real playa like, 2 doors from Seinfeld  
White marble, new floors that shine still  
And the help keep food store, wine chilledHey, we gotta live one day right  
Well, how bout from Friday to Sunday night  
Then back fore they notice, back up in Lotus  
Let the world know we back and we focusedHey, shawty, we could do it real playa like, yeah  
He could go a few places that you say you like, yeah  
See what it is like, when you be my a-alike?  
Girl just lay back, Ill do it that way you likeSaid its the flyest thing just the way we swing  
Me and you, how we do? We so fly
