

Last To Know

Pink

Why was I the last to know?
That you weren't coming to my show you coulda
Called me up to say "Good luck"
You coulda called me back you stupid fuck
Why was I the last to know? First date, we ate Sushi and
It went well, I was funny and
You said I was a cutie
That's the last thing I heard from you I left the tickets at the door for you
I had to tell my mom that there was no more room
You didn't show, that was so uncool
You coulda called me back So I guess this means that we're
Not friends anymore, I heard
It's me you're asking for, I thought
I'd see you at the show you said you'd go Why was I the last to know?
That you weren't coming to my show you coulda
Called me up to say "Good luck"
You coulda called me back you stupid fuck
Why was I the last to know?
Why was I the last to know? After the date, I wouldn't go home with you
I wouldn't put my heels in the air for you
You tried to get me to do things I just won't do
Last I heard from you Here is how I guess the story goes
You woulda came if I was a hoe
Fuck for parts that's just not how
I roll, move it on down the road So I guess, we shouldn't have been
Friends anymore, sick of hearin'
That it's me you're askin' for
'Cause I thought I'd see you at the show
You said you'd go
Why was I the last to know? That you weren't coming to my show you coulda
Called me up to say "Good luck"
You coulda called me back you stupid fuck
Why was I the last to know?
Why was I the last to know? You thought you know me
I guess you didn't
You thought you had me
I think you didn't
You thought you knew me
I guess you didn't Why was I the last to know?

That you weren't coming to my show you coulda
Called me up to say "Good luck"
You coulda called me back you stupid fuck
Why was I the last to know?
Why was I the last to know?
Why was I the last to know?The last to know
Why was I the last to know?
Why was I the last to know?
Why was I the last to know?
You coulda called me back
Last to know
