

# Good Souls

## Starsailor

Feel sick after every meal, I take  
'Cause I know the life from your burning wing, won't wait  
Sleep, I sleep every day  
Wipe the cobwebs away, I need to be loved  
Christ, I'm out of my mind  
I need to be loved, I need to be loved  
As I turn to you and I say  
Thank goodness for the good souls that make life better  
As I turn to you and I say  
If it wasn't for the good souls, life would not matter  
Dive straight in on your girlfriend  
Making her feel like there's gonna be a war  
Dive, straight in at the deep end  
Making you feel like there's gonna be a war

As I turn to you and I say  
Thank goodness for the good souls that make life better  
As I turn to you and I say  
It wasn't for the good souls, life would not matter  
One good day of the week and I'll be up again  
One good day of the week, I'll be higher than the Government  
As I turn to you and I say  
Thank goodness for the good souls that make life better  
As I turn to you and I say  
If it wasn't for the good souls, life would not matter  
As I turn to you and I say  
You're messing with a good heart, you've gotta take what's due
