Super Overdrive

Billy Idol

In the Devil's playground
With an idle mind
That's straight up, ready to go
Announce the time
Does he still have the magic?
Yes, he does
He'll be famous just because
Just because
You know you're gonna have
To turn around
Just because you have to
Change your mind sometimes
Yeah, you're gonna have
To turn around
Round the rocket
Round and round and round we go
One time before I die
Round and round and round the world
In super overdrive
See the world through a little hole
See it fly by
Here I am in super overdrive
Overdrive, super overdrive
I'm slidin' on the swings
I'm swinging' on the slides, I'm alive
Fuel-injected, passion-erected
Death-defied
One day it's gonna come, boy
You're gonna pay, oh
But that ain't today ridin' on the Milky Way
On the Milky Way
You know you're gonna have
To turn around
Just because you have to
Change your mind sometimes
Yeah, you're gonna have
To turn around
Bite the bullet
Round and round and round we go

One time before I die
Round and round and round the world
In super overdrive
See the world through a little hole
See it fly by
Here I am in super overdrive
Overdrive, in super overdrive
Take it
A little 1, 2, 3, 4
Well, in the Devil's playground
With an idle mind
Straight up, ready to go
Announce the time
Does he still have the magic?
Yes, he does
He'll be famous just because
Just because
Round and round and round we go
One time before we die
Round and round and round the world
In super overdrive
Round and round and round we go
One time before I die
Round and round and round the world
In super overdrive
I could see the world through a little hole
See it fly by
Here I am in super over
Here I am in super over
Here I am in super overdrive
Super overdrive
In super overdrive
In super overdrive
In super overdrive
Super overdrive
In super overdrive
In super overdrive
In super overdrive
Alright!
