

I Forgot

The Moldy Peaches

Down in the alley
What's your mother made of?
Heads up, seven up
Ding dong, come in I left my wood paneling
On the embassy coat rack Where is mankind?
My big black behind
Follow your star
Play your guitar I said candy land
He said toy land
Queen frosting
Eleventeen marzipan Adam?
I forgot Where is mankind?
My big black behind
Follow your star
Play your guitar Ahh
