

# U Should

## LL Cool J

Yeah

Yeah I'm a make you feel good (uh)

It'll be my pleasure to take you out the hood (yeah)

Let you shop 'til you drop

Let you pick your own rocks I'm a carry the bags

Tell you little things, make you giggle and laugh

In the, strawberry bubble-bath

The future's bright, baby forget about the past (yeah) Get your toes done

Sacrifice our love for no one

French perfume

Brand new mansion, let you decorate the rooms Breakfast in the suite (yeah)

Walk hand in hand in the French Riviera streets

Make no mistake

I'm a get you what you want, girl whatever it takes (yeah) [Chorus]

You, should know, how to treat, your girl, playboy

(You should know how to treat her)

You, should know, how to treat, your girl, playboy

(That's your girl playboy) I'm a caress your face (uh)

Give you the keys to your new place

Just don't touch my safe (ahaha)

That's forbidden fruit, and that would be a waste Which bracelet you want? (huh?)

What shoes you want to flaunt? (huh?)

You like the Gucci joints

Or the Manolo Blahniks cause they ultra sheek Have you looking like a runway model

Sipping Perrier your way out of custom bottles

Aromatherapy and massages

Take you to church baby, teach you who God is (amen) Tell me what you like (uh)

Where you want to go, we goin' there tonight

No question I'm the real McCoy

You ain't gotta be a pimp if she loves you playboy [Chorus] I tease you with the tip

I'll bite your bottom lip

Make you climax real quick

Over and over again, it's sick Ordering your favorite food

Incense and candles, I set the mood

Tear you up on PlayStation 2

You on the phone with your aunt cause I'm lacin' you (uh) Pillow fights in the water bed, mirrors on the ceiling  
(yeah)

Hot and sweaty, clothes start peeling

Why you think the waterfall's in the shower

Float with me, the world is ours You a pretty little thing, ya know?  
You keep me hungry, make me want to get dough  
That's why I take care of you  
Most men can't do what I do, ya know? [Chorus: x2] [LL Cool J]  
Yeah, treat you right baby  
I'll treat you right, yeah
