

Come Down the Coast

Camper Van Beethoven

Grass it is green, cool beneath our feet
Honey, it's sweet, sweet on the bread
The sea and the shore, forever entwined
They all sing the same song
Please come down the coast Esmeralda, come down and see me sometime
Gabriella, come down and see me sometime
Isabella, come down and see me sometime
Come down the coast So bring down your good friends, bring down the madmen
Bring the old tigers, bring down the young turks
Bring out the seers, the confederate dreamers
They all sing the same song
Please come down the coast Josephina, come down and see me sometime
Magdalena, come down and see me sometime
Rosalina, come down and see me sometime
Come down the coast Esmeralda, come down and see me sometime
Gabriella, come down and see me sometime
Isabella, come down and see me sometime
Valentina, come down and see me sometime
Come down the coast
