

# Waterfall

## Bananarama

I just took a bite  
From your sweet mouth  
Starburst bright  
Falling to the groundThe grass is green  
Beneath my feetCan you feel(chorus)  
It's like a waterfall coming down  
Your love it just shiners through me like the sunI can feel your touch  
On me skin tight  
Slip and slide  
With me through the night  
Floating free(chorus)Your kisses fall like flowers over me(chorus)
