

Shapeless & Gone

Porcelain Raft

In a strange kind of way, lifeless landscapes have so much to say
And its hard to sleep tonight, in my head buildings are collapsing
Ive never seen the desert before, to be close to nothingShapeless and goneSo good to know you are out there, so
good to know you still care
And the light seems more bright, even the air feels like the first time
And i feel shapeless and goneso close to nothing.Shapeless and gone
