

# Living Forever

## Genesis

Well, I'm feeling so confused today  
Well, they've gone and changed the rules again  
'Cause in my life I'm tryin' hard  
To do it all so I can remain healthy and sane I'll live forever  
    Always one more tomorrow  
    Living forever  
Always one more tomorrow I heard it on the radio  
    Too much of what they said, wasn't so  
    And now we've got to do those things  
    That they thought before were so wrong  
    To be healthy and strong And live forever  
    Always one more tomorrow  
    Living forever  
Always one more tomorrow Well, I know we don't need you  
    I know we don't believe you  
You don't really have the answers You think you know better  
    You think it really matters  
You just want to rule over everybody's lives But I think, I'll change my life today  
    Gone are the times of takin' care  
    And I really don't need a reason why  
'Cause all I need is all in a day, survive in a way Or just till tomorrow  
    There's always one more tomorrow  
    Living forever  
Do you really want to live forever?
