# Starlight

## Freedom Call

Hear the queen of the universe
Real, can you feel the breeze of life tonight?Have you ever been out in the skies?
Have you ever seen the beacon in the night?She's my starlight, lasts forever
Silver starlight, holds me in her armsHere, oasis of harmony
Real, once she only was a dream, the lightHave you ever been out in the skies?
Have you ever seen the beacon in the night?She's my starlight, lasts forever
Silver starlight, holds me in her arms
Hold me in your armsShe is made for eternity
Clear, clear like the source of life, source of life
My life, of my life, life, life, lifeShe's my starlight, lasts forever
Silver starlight, holds me in her armsShe's my starlight
Silver starlight, holds me in her arms
