

What Do U Got

Kevin Rudolf

Don't try to be someone you're not
It always comes down to people who blow up spots
Everyone's the same when the music stops
So tell me what do u got that I don't, I don't got? I can't tell by the look in your eye
That you're dyin' to somebody to change your life
(Oh, oh, oh)
And I don't know who you're tryin' to be
But it sounds a lot better when you're lyin' to me
(Oh, oh, oh) In a world where nothing's free
How do you live so comfortably?
You should really love yourself
'Cause in the end you won't have no one else Don't try to be someone you're not
It always comes down to people who blow up spots
Everyone's the same when the music stops
So tell me what do u got that I don't got?
What do u got that I don't got?
Tell me what do u got that I don't, I don't got? Did you forget where you came from?
We both know your story so don't play dumb
(Oh, oh, oh)
I don't know who you think you are
But I promise that it's never gonna get you far
(Oh, oh, oh) You know in life there's no guarantees
But you fall through the cracks so easily
You should really trust yourself
'Cause in the end you won't have nothing else Don't try to be someone you're not
It always comes down to people who blow up spots
Everyone's the same when the music stops
So tell me what do u got that I don't got? What do u got that I don't got?
Tell me what do u got that I don't got?
What do u got that I don't got?
Tell me what do u got that I don't, I don't got? You can feel it, gonna make it
You'll do anything it takes
Now it's my turn to dissuade you
Believe me when I say, oh Don't try to be someone you're not
It always comes down to people who blow up spots
Everyone's the same when the music stops
So tell me what do u got that I don't, I don't got? What do u got that I don't got?
Tell me what do u got that I don't got?
What do u got that I don't got?

Tell me what do u got that I don't, I don't got?
