

Taking Back My Soul

Arch Enemy

Processed, diluted
Virtually unrecognizable
I was lost there, no direction
A scattered void No more, it's over, I'm onto you
(Your evil game)
The tables have turned
I'm taking back my soul Tranquilized, scrutinized
Hate injected mind
As if eternal wounds
Wouldn't bleed, wouldn't hurt me No more, it's over, I'm onto you
(Your evil game)
The tables have turned
I'm taking back my soul I see through you're lies
Taking back what's mine No more, it's over, I'm onto you
(Your evil game)
The tables have turned
I'm taking back my soul No more, it's over, I'm onto you
(Your evil game)
The tables have turned
I'm taking back my soul, my soul
