

Until the End of Time

Electronic

Not a trace of emotion remains inside
Two hearts broken lay down by the riverside
Single handed they tried to escape from me
With a turn of the wheel it was drivin' me Drivin' me crazy, oh baby
You're driving me crazy, oh baby
You're driving me crazy, oh baby
You're driving me crazy, oh baby This love was born instead of hate
Celebrate our love
(Celebrate)
Let me feel the right vibration
Celebrate our love
(Celebrate) And until the end of time
Celebrate what's mine
Make it good and let it shine
Celebrate our love Revelation, a fate that just can't decide
They lay down in the flow of the rising tide
There's a side of your life that you never see
It is real, this I feel and it's drivin' me Drivin' me crazy, oh baby
You're driving me crazy, oh baby
You're driving me crazy, oh baby
You're driving me crazy, oh baby Gotta find, gotta find, some peace within our time
(Until the end of time, until the end of time)
(Celebrate)
Gotta find, gotta find, some peace within our time
(Until the end of time, until the end of time)
(Celebrate) This love was born instead of hate, celebrate our love
(Gotta find, gotta find, some peace within our time)
(Until the end of time, until the end of time)
(Celebrate)
Let me feel the right vibration, celebrate our love
(Gotta find, gotta find, some peace within our time)
(Until the end of time, until the end of time) And until the end of time
Celebrate what's mine
Make it good and let it shine
(Gotta find, gotta find, some peace within our time)
Celebrate our love This love was born instead of hate
Celebrate our love
(Celebrate)
Let me feel the right vibration

Celebrate our love And until the end of time
Celebrate what's mine
Make it good and let it shine
Celebrate our love
