

# Bats

## Tourniquet

You think they'll hit you but they won't  
You think they nest in your hair but they don't You think that feathers is what they got  
You think they are a bird, but they are not The old adage "Blind as a bat"  
The truth is they can see, but not as good as you and me I used to think that God was always serious  
And I could walk the fence, I must have been delirious  
I wonder if he laughs  
I guess that I'm just curious
