

Asleep, I Lie

Earshot

I can't stay forever
And you're too insulting to me, darling
I can't live forever
And be who they want me to be, I cannot pretend
I will not surrender these dreams in my head
I, I will not disguise
They cannot cover the stars in my eyes
(Asleep I lie) Fall, like I do
Will this be the first time for you?
Walk on me, I walk on you
Stuck on me, stuck on you, I cannot pretend
I will not surrender these dreams in my head
(Asleep I lie)
I, I will not disguise
They cannot cover the stars in my eyes
(Asleep I lie) All the things they're telling me
Make me wanna up and leave
But I'm not sure that now's the time
And I'm not sure of anything But even if I crossed the line
At least I'm being true to life
It's me out with the stars tonight
It's me out with the stars tonight, I cannot pretend
I will not surrender these dreams in my head
I, I will not disguise
They cannot cover the stars in my eyes
(Asleep I lie) I, I cannot pretend
I will not surrender these dreams in my head
I, I will not disguise
They cannot cover the stars in my eyes
Asleep I lie
