

The Bike Song

Mark Ronson & The Business Intl

(Repeat x4)

I run around town, around round the town
With the pedal to the me... The pedal to whatever

(Verse 1)

Shootin' round these tricky bends
I hear a conversation in my head
Thinkin' of the place to be
I sing a little melody instead
I won't argue with myself, today my legs are gettin' some hell
My mama tells me I should stop
Go and get a real job
That can't be the way that i roll

And everybodys growing up, having kids and paying rent and all getting cars of their own

(Chorus)

Gonna ride my bike until i get home
Gonna ride my bike until i get home
Gonna ride my bike until i get home
Gonna ride my bike until i get home

(Verse 2)

Thinking 'bout the girl I met, a phone call that I haven't made yet
All the things I've done this week, and all the things I should've done instead
I sweep the pavements and the parks; I hope that I get home before its dark
My mama tells me I should stop

Go and get a real job

That can't be the way that I roll

And everybodys growing up, having kids and paying rent and all getting cars of their own

(Chorus)

Gonna ride my bike until i get home

Gonna ride my bike until i get home
Gonna ride my bike until i get home
Gonna ride my bike until i get home

(Bridge)

I can't understand it, but i can't really stand them
Girls love cars, cars cause harm to the planet
Don't you wanna take a joyride on my tandem
Humming on a huffy, don't I look so handsome
Bass to bikes they're so nice they're priceless

Working on my calves the triceps to biceps, bypass the gas stop at traffic lights

I get a round round without a driver's licence
Hello (Hi!) you walking, (No) farewell (Oh!) I'm off then
And I'm whipping through the city with a 40 and a 50 Polly popping on my wheelie
My mama tells me I should stop
Go and get a real job
That can't be the way that I roll
And everybody's growing up, having kids and paying rent and all getting cars of their own

(Chorus)

Gonna ride my bike until i get home
And I'm whipping through the city with a 40 and a 50 Polly popping on my wheelie
Gonna ride my bike until I get home
Gonna ride my bike until I get home
Gonna ride my bike until I get home
Gonna ride my bike until I get home
