Open Your Eyes

Fightstar

Would you change this all if you'd had your say?
(Waking up in darkness must have been hard)
Finding all those moments burned into reminisce
(Desperately you crawl and ask yourself)If you could just open your eyes
If you could just open your eyesFor everyone's sake
For everyone's sake
Stay away from here
For everyone's sake
(I got left behind)
For everyone's sake
Stay away from hereMaking sense of senses you've never felt
(Clutching on to dust as hope becomes clear)
People breathing air in hope of a perfect world
(All these chances you could make it all fit)If you could just open your eyes
If you could just open your eyesFor everyone's sake
For everyone's sake
Stay away from here
For everyone's sake
(I got left behind)
For everyone's sake
Stay away from hereIf you could open your eyes
If you could open your eyes
If you could open your eyes
If you could open your eyesIf you could open your eyes
If you could open your eyes
If you could open your eyes
If you could open your eyes
