

You Wouldn't Know Love

[Donna Beasley](#)

You wouldn't know love if it walked in the room
You wouldn't know love if it strolled up to you
Picked up a guitar and sang you a song
You'd still get it wrong
You wouldn't know love

You wouldn't know love
if it screamed out your name
You wouldn't know love if it played all your games
Believed what you said gave you benefit of doubt
You couldn't figure it out
You wouldn't know love

I can see why maybe I'm not your kinda girl
I'm a quarter jukebox in a karaoke world
I'm shooting under the top, flying under radar
I'm a hillbilly singer in a town of pop stars
Yeah, yeah, yeah!

You wouldn't know love if it stormed out the door
You wouldn't know love if you had it no more
If it called you on the phone and said "enough is enough"
And it took all your stuff
You wouldn't know love
You wouldn't know love
You wouldn't know love
