

White House

Rick Ross

Let me think back to '96
When Booby had the realest *** feelin' like a ***
They go for 20 hours gettin' them for the 17
A lil' G, look at me, I was 17
Born on the side of town where them killas ride around
Pull up on the block, put a block on tied down
*** in his pants and he stand like, ?*** you
I'm from the other side where we ride like a bus do?
36 *** got me ridin' Lexus
Chevy at the crib, hit the *** from Texas
Dade County D Boy, deals on the ***
Triple C, da mafia, they kill when I say so
Before I rolled a zone, I could court a zone
I had to feed myself, *** I was on my own
Now I push *** bigger than the President
I'm at the White House known as my residence
I'm in the White House, House
I'm in the White House, House
I call the shots, I can get your a*** wiped out
We in the White House, House
We in the White House, House
Big phantom on the lawn gettin' wiped down
I'm in the White House, House
I'm in the White House, House
I got a hundred a them things *** right now
We in the White House, House
We in the White House, House
I got them *** gettin' on b*** right now
I don't f*** with p*** n***, took my s*** to Jigga Man
I went to Manhattan and came home a young millionaire
Money on my mind, I'm a trill *** anyway
I slap a *** now for anythin'
Motha*** the other side, *** bleed deep
That's my opinion, wanna know what the *** think?
We load up in 'em things, boy, I'm a head busta
*** the music, where your real muscle?
I'm in the White House, White House
I'm in the White House, White House

I put a hit on them ***, they gettin' wiped out

They gettin' wiped out and not one at a time
'Car full of dead black males' read the headline
I'm in the White House, House
I'm in the White House, House
I call the shots, I can get your a*** wiped out
We in the White House, House
We in the White House, House
Big phantom on the lawn gettin' wiped down
I'm in the White House, House
I'm in the White House, House
I got a hundred a them things *** right now
We in the White House, House
We in the White House, House
I got them *** gettin' on b*** right now
I'm the fruit of the loom, I be flyin' in Lears
Give me fruit and I boom, supplyin' for years
I'm on top of the world, I'm gettin' money
Hundred grand in a day? Easy, I'm gettin' money
Pull up real slow, I let the haters watch
I at a steak place, they in a state of shock
You n*** goin' fishin', I gotta play the shark
You better play your part, you ain't gotta play apart
Got a *** that will tear your whole day apart
That sticker make them sit like a Saint Bernard
I'm in the White House, time to close shop
Inventory, wiped out, boy, dat with better glocks
I'm in the White House, House
I'm in the White House, House
I call the shots, I can get your a** wiped out
We in the White House, House
We in the White House, House
Big phantom on the lawn gettin' wiped down
I'm in the White House, House
I'm in the White House, House
I got a hundred a them things *** right now
We in the White House, House
We in the White House, House
I got them *** gettin' on b*** right now
