

Yo Quiero Saber

Ivy Queen

Scarlito
The fans Entertainment
Here we go
This song is dedicated to the fellas That think they have their women on lock down
True Story

Its something on my mind
and girl this time i have to say
We havent had a kiss or a hug since way back when it was May
And now up in August it's been too long
Tell me what's goin on
Tell me what i did and baby if i did it wrong.
yeah yea ye

(That's when)
Wifey said i have to go
(kreepin)
You messed around you dirty hoe oh no
(mi amor)
Porque me botas sin explicarme,
Yo no me voy a ninguna parte,
el no sabra a apreciarte(noo)

Yo quiero saber
Si el te ama mas que yo
Vete tu con el, que te matara el dolor
(yo quiero saber)
Yo quiero saber
Si el te ama mas que yo
Vete tu con el, que te matara el dolor

Recuerda when we first fell inlove
You said you'll never break my heart
(siento una traicion)
Oh que me quema por dentro oo0o0oh

(that's when)
Someone walked right through the door
(is it your boyfriend)
And if its him, hit the floor

(el y yo)
No puede ser, mi mujer con mi hermana
No lo creo son lesbiana
I'm goneeee o0oo0oh!!!

Yo quiero saber, si es con ella la traicion
(vete tu, vete tu)
No no puede ser
How your sister did me wrong
(porque)

Yo quiero saber, si es con ella la traicion
No no puede ser
How your sister did me wrong

I knew it... your own brother.
How you gon do me like that?

(Porque)
[Judy:]
Ya never know what's in my head boy
(you trippin)
With not a doubt i touch myself
(mi amor)
[Toby:]
como puedes traicionarme,
How did we get in this conflict
[judy:]
Your sister knows just how i like it

Yo quiero saber, si es con ella la traicion
No no puede ser
(con mi hermana no)
How your sister did me wrong
(don't love you)

Yo quiero saber, si es con ella la traicion
(no more Secrets)
No no puede ser
(es una maldicion)
How your sister did me wrong

Yo quiero saber, si es con ella la traicion
No no puede ser
How your sister did me wrong
(Yo quiero saber)

Yo quiero saber, si es con ella la traicion
No no puede ser

How your sister did me wrong
