

Love Me Back To Life

Bon Jovi

This world don't give you nothing
It can't take away
Everybody holding on to something
Nobody want to fade away
No forgiveness on the streets of this town
I left my patience at a traffic light
There's no denying that I almost lost it
Threw in the towel, too tired to fight
 Tonight I need you
 More than yesterday
 Tonight I need you
Take me, touch me, hold me like you mean it
 Make me come alive
Hurt me, heal me, come and make me feel it
 Rescue me tonight
 Love me back to life
These days I'd trade sight for feeling
 There are days my feeling's gone
Can't figure out whose life I'm living
 I don't know right from wrong
 When I lost faith
You found it and gave it back to me
 There's a new light on your halo
 It took blind eyes to see
 That I need you
 More than yesterday
 Yea, I need you
Take me, touch me, hold me like you mean it
 Make me come alive
Hurt me, heal me, come and make me feel it
 Rescue me tonight
 Love me back to life
Take me, touch me, hold me like you mean it
 Make me come alive
Hurt me, heal me, come on make me feel it
 Rescue me
Come on take me, touch me, hold me like you mean it
 Make me come alive
Hurt me, heal me, come on make me feel it

Rescue me tonight
Love me back to life
Come on, love me back to life
Love me back to life
Love me back to life
