

u just can't be replaced (feat. rosabeales)

Gnash

Walk with me in the dark
hold my hand through the park
don't be scared, it'll be alright
come to bed, turn out the light
Something about you makes me wanna try again
I tried to fill the space, forget from my mistakes
you just cant be replaced
you just cant be replaced
I cant forget your face
come home, don't fade away
you just cant be replaced (x10)
